

Raiffeisen-Leasing Aircraft Finance: International network.

Raiffeisen-Leasing Aircraft Finance boasts a strong network in Central and Eastern Europe, and further subsidiaries in Germany, Switzerland, Italy, Sweden and Finland. These units both serve local clients and accompany clients wishing to enter these markets. Other countries can be serviced via Cross-Border-Leasing out of Vienna.

Raiffeisen-Leasing Aircraft Finance: Working for you.

Raiffeisen-Leasing has been specialising in business jet financing for many years, firmly establishing itself as a leading service provider in this market. To maximise efficient and professional handling of such transactions, a competence centre for aircraft financing was founded as Raiffeisen-Leasing Aircraft Finance GmbH.

What we can do for you:

Raiffeisen-Leasing offers its clients a wide array of services. We help you find your desired aircraft, providing you with specialised tax and legal advisers. We also help you negotiate the deal and choose the right aircraft operator. Last but not least, we provide you with a customised financing solution.

Depending on your needs Raiffeisen-Leasing offers leasing or hire-purchase, off-balance or on-balance financing, where equity capital, lease duration and residual value are optimally structured to match the value of your aircraft. This kind of debt financing enables clients/investors to keep their equity working in the business. In most cases, the return on such activities is considerably higher than the cost of financing the aircraft.

We provide customised lease solutions:

- ▶ Leasing
- ▶ Hire purchase
- ▶ Sale-and-lease-back

Raiffeisen-Leasing Aircraft Finance: Realise the benefits.

The co-operation of Raiffeisen-Leasing Aircraft Finance with commercial operators registered in Western Europe brings several advantages for our clients.

How you benefit:

- ▶ Preferential customs treatment
- ▶ VAT advantages
- ▶ Stable legal system and jurisdiction
- ▶ Separation of aircraft from core business if required
- ▶ Attractive financing conditions
- ▶ Professional handling by commercial operator to maximise aircraft performance
- ▶ Additional revenues generated by third party charters

Advantages of aircraft financing with Raiffeisen-Leasing Aircraft Finance:

- ▶ Tailor-made financing solutions
- ▶ Capital conserved
- ▶ Credit sources and assets unaffected
- ▶ Service and know-how of the international Raiffeisen network
- ▶ Co-operation with aircraft manufacturers, brokers, operators, specialised legal and tax advisers
